### DETAILED ACTION

This Office action is in response to the amendment filed May 2, 2005 in which claims 1, 10, 11 and 20 were amended. The previous rejections are withdrawn with the exception of the Double Patenting rejection.

In the claim 1, "ration" should read – ratio --.

### *Double Patenting*

1. Claims 1, 2, 4-12, 14-21, 23-29 and 31-36 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-6, 8-19 and 21-31 of U.S. Patent No. 6,239,298 for the reasons of record.
2. Applicant's arguments have been considered but are not deemed to be persuasive.

Applicant argues that the first moieties are distinguishable between the present application and the patent, and the compounds of the present invention have surprising properties and utility.

The unsaturated synthetic base oil of the present invention satisfies the unsaturated triglyceride plant oil thermal polymer of the patent. Therefore, the claims of the present invention are unpatentable over those of 6,239,298.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
